Experience

MindGeek (formerly Manwin) – Montreal, QC | Front-end Web Developer, Oct 2012 – Present

- Currently building a platform that uses components to create (admin-facing) and generate (client-facing) websites dynamically
- Built, managed, and maintained the front-end for the company's call-center application
- Built, managed, and maintained the front-end for a support and subscription self-management web application
- Additionally, built, and maintained many applications, notably a data dashboard, server status/manager, and website benchmarker
- Implemented a wide variety of web technologies that ranged from static web pages to RESTful APIs (level 2)
- Developed UI/UX mockups, performed live user tests
- Developed several PR websites, including the corporate website: mindgeek.com
- Provided reinforcement for other teams to accelerate their projects
- Worked in an Agile Development environment

Future Electronics – Pointe-Claire, QC | Graphic Artist, 2007 - Oct 2012

- Created advertisements, graphics for small and medium sized booths for conventions, and tiles/banners for the web
- Created and used InDesign templates for use in publications
- Coded HTML and CSS for the Future Lighting Solutions website
- Created icons and Illustrations for presentations

Self-employed – Remotely | Freelance Web Developer and Graphic Artist, 2006 - Present

A few of the companies and the projects:

- 2014-2016: Concept Illumination: website, corporate
- 2014: VIPMayan: website, landing page
- 2014: Passion and Vice: website, landing page
- 2012: Cub3d: website
- 2011: Cogiscan: brochure, illustrations
- 2010: INTEQ: brochures and website, corporate
- 2010-2012: Radialpoint: emails and graphics, corporate
- 2009: Usmile: website, e-commerce
- 2006-2011: American Dye Source, Inc: product catalogue, email advertisements

Education

Concordia University - Montreal | Bachelor of Fine Arts, Specialization in Computation Arts, 2008 - 2012

- Learning and practising the use of various forms of media: 2D graphics, 3D models, animation, video and sound editing, web development, and tangible media (physical computing).
- PHP Programming with MySQL - Level 1, 2014

John Abbott College - Montreal | Diploma of Collegial Studies in Publication, Design and Hypermedia Technology, 2003 - 2007

- Learned design principles in both the print and web (HTML, CSS, JavaScript, and PHP) fields and the use and operation of industry-standard software for the design field (Adobe Creative Suite: Photoshop, Illustrator, InDesign)

Self-Learning (notable online modules)

- Egghead 2016: Start Using React to Build Web Applications, Getting Started with Redux
- Code School 2015: Real-time with Node.js, Building Blocks of ExpressJS, Try SQL
- Pluralsight 2014: Angular Fundamentals, AngularJS
